III. POLICY

It is the policy of the MJFD to endorse the District mission statement and be guided by practices and policies which support the mission.

IV. MISSION STATEMENT

The mission of the MJFD is to protect lives and property by providing residents and visitors of the Mescal-J6 Fire District with as modern and as effective fire, rescue, and emergency medical services as possible by an all-volunteer community fire department.

We dedicate ourselves to a proactive approach of training, fire prevention, and planning, while also fostering community awareness of and participation in fire safety matters.

We will fulfill the trust placed in us by our community by being prepared for fires, accidents, and other emergencies that may occur; and by executing our services in a safe and respectful manner, with the least possible risk to life, injury, and damage to property.
