Training: Captain Olander and Firefighter Soto finished their technical rescue training at the recent Arizona State Fire School. Annual training regarding bloodborne pathogens, HIPPA, workplace violence and other mandatory training is underway.

Apparatus Maintenance: Chief Moran will take B171 to Discount Tire this Friday for six new tires. T172 has a head bolt missing/broken and is experiencing low power and will go into the shop this Monday.

Facility / Building Maintenance: Volunteers cleaned up the grounds at Admin in conjunction with the National Day of Remembrance and Service. Chief Moran is painting the new doors at Admin.

Billing: Unremarkable

Other:

- I recently attended a meeting at SEACOM, in regards to mapping and 911 call routing. I also met with the mapping vendor separately and confirmed our response area is accurately defined for SEACOM dispatchers. We are still experiencing issues with 911 calls being routed properly in Pima County, but this should finally be resolved in a month when the mapping data I provided is updated in their system.
- A representative from Globe Life recently provided a few employees a presentation of the supplemental insurance benefits they offer. I am aware of at least one firefighter who signed up and the rep plans to return to speak with those who couldn't make the original presentation. If any board members are interested, I will make sure to let you know when she will be back again. This type of insurance may be something the District would like to offer in the future as an employee benefit.
- The results of our workers compensation audit are in; we neither owe, nor do we receive a credit this year..
- A reminder that this Saturday is our Family Movie Night! We'll be showing the movie Odd Hours, No Pay, Cool Hat... about the American Volunteer Fire Service. Movie Starts at 7:00pm.. free popcorn, free cotton candy, jumping castle for the kids and lots of door prizes!
