The Mescal-J6 Fire District Governing Board has identified several projects, capital expenditures and other major improvements that, when realized, will best serve the needs of our community well into the future. They are (not in any order, as opportunities may arise, allowing one area to be handled prior to another):

1. Purchasing and/or unbudgeted repairs to mission specific vehicles/apparatus.
2. Purchasing and/or repair of equipment, training props, PPE, and safety gear.
3. Purchase and/or unbudgeted repairs to current structures, buildings and associated contents.
4. Increase community outreach and risk management efforts through various means.
5. Begin investigation, assessment, purchase of land, and eventual construction of a new fire station.
